

**Coastal Georgia Historical Society
World War II Home Front Museum**

**Images and Oral Histories
Potential Donor Information Form**

The Coastal Georgia Historical Society is collecting information on potential new image and oral history resources related to the World War II home front history of Glynn County including, but not limited to: shipbuilding, the Naval Air Stations, and civilian defense activities.

If you have a resource you feel we should know about, please fill out this form and return it to the CGHS Administrative office or sjensen@coastalgeorgiahistory.org

Please note: while images, objects, and remembrances from the battlefield and other locations across the U.S. are important resources, we are only collecting **local home front** history at this time.
